**Introduction**

Motion Response is the Filing Type that is selected in eCourts when an Attorney or Law Firm is filing a motion in response to a previously filed motion in a docketed case. A motion response can be either a Cross Motion or a Non Cross Motion (Adjournment Request, Correspondence, Opposition to Motion, Reply Brief, or Withdrawal of Motion).

**Motion Linking**

When filing a Cross Motion or a Non Cross Motion, eCourts allows the filing to be linked to the existing Motion against which it is in reply. This allows for quick identification of Motions which are opposed.

**Target Audience**

This Guide is for:
